Business Process Optimization

**Getting the Most out of your Joesoftware
and Dynamics GP Investments**

IT'S A DYNAMIC FUTURE

- ✓ **What is a Business Process Optimization?**
- ✓ **Why would we do this?**
- ✓ **What would be included?**
- ✓ **What are the benefits to the organization?**
- ✓ **How would we do this?**

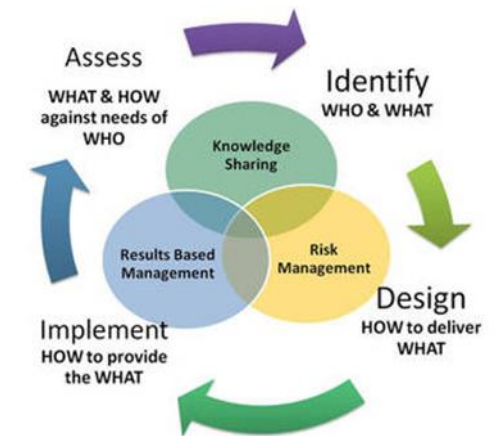

Why Consider a Business Process Review and Solution Optimization?

- ✓ Original processes need improvement
- ✓ Staff turnover
- ✓ Processing & reporting inefficiencies
- ✓ Under-utilization of new features & technologies
- ✓ Data redundancy and integration
- ✓ Changes in business procedures or service delivery requirements
- ✓ Maximizing your investment
- ✓ Preparation for future upgrades

What Areas Can be Addressed?

- ✓ Reporting & BI optimization
- ✓ Chart of Accounts review
- ✓ Business process re-engineering
- ✓ System utilization training
- ✓ Data clean up & optimization
- ✓ User security
- ✓ IT environment
- ✓ New features and products

What are the Benefits?

- ✓ **Productivity gains**
- ✓ **Information access**
- ✓ **Automating new and existing business areas**
- ✓ **Optimize business processes**
- ✓ **Remove redundancy**
- ✓ **Implementation of best practices**

IT'S A DYNAMIC FUTURE

How do we do this?

- ✓ **Engagement from all levels**
- ✓ **High level approach with focus on investment considerations**
- ✓ **Granular approach with focus on a specific business process**
- ✓ **Continual approach over longer time frame (fit/gap analysis & cost/benefit analysis)**

IT'S A DYNAMIC FUTURE

What is the End Result?

Business Process Review and Solution Optimization is really about maximizing the value of your software investment!

Thank You
