

Another tool in your back pocket to make getting information into Dynamics GP easier.

Excel Everywhere™ allows for simple, user driven data integration between Excel and many Dynamics GP windows. Open the Excel file, select your data and seamlessly paste it into Dynamics GP.

Copy/Paste Capabilities for Dynamics GP

Reduce Duplication

- Eliminate the need to re-enter data
- Manipulate data using the power of Excel prior to inputting it into GP
- Ensure accuracy by eliminating re-keying data

Take Control

- End user focused. Simple, Easy, Complete
- No programming experience needed
- Integrate information without the need for IT or consultants

To find out more, contact Sales@Joftware.com

Be Adaptable

- Leverage the power of Excel to import ASCII, delimited, Excel or database records
- Re-organize the information within Excel
- Consolidate data from dissimilar sources

“Excel Everywhere allows me to tweak data in a platform I am comfortable with, then bring the data into Dynamics GP. Now, when I run into a problem, I can solve it myself rather than having to wait for IT”
