

## Easy entry, fast approvals, and intuitive reporting. That's Spencer™ expense software.

Spencer™ works seamlessly and securely with your accounting workflow. Its browser-based interface makes entries easy for employees, and manager approvals a snap.

## Efficiency software for Microsoft® Dynamics GP

### Smart Expense Workflows

Configurable expense reporting that fits how you do business. Need integration? Spencer can auto-populate incoming expenses from many credit card companies.

**Spencer™** Finally, a solution to the millions of tiny pieces of paper that go astray between incurring business expenses and the monthly hassle of claiming them.

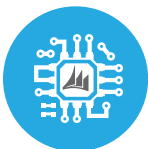

With Spencer, everyone in the company gets immediate, secure access to their records, from anywhere. Entering receipts and information is a snap.

### Self-hosted and secure

Keep information secure and safe. Build in corporate controls to pay only valid expenses.
